Without you we are grounded

The Wiltshire Air Ambulance is not government funded, nor does it qualify for National Lottery Funding. It is purely down to the goodwill of the people of Wiltshire who have kept the helicopter flying for these past years.

Over the years the crews have attended thousands of incidents. Sadly almost half the incidents are road traffic accidents, but it also gets called out to horse riding and sports injuries, industrial and farm accidents, fires and medical emergencies.

The helicopter, a MD 902 Explorer, always flies with a crew of three which includes the pilot, the police observer and the paramedic.

Your help in securing the future of the Wiltshire Air Ambulance is important to us, so please help by donating your foreign currency here.
